OOD Approximate Nearest Neighbors Search

55,000 PLN Prize Pool

WARSAW  
RESEARCH  
CENTRE

Huawei Tech Arena is an annual competition open for the whole CEE region listed countries. As an industry leader in information, communications technology, infrastructure and smart devices, Huawei is eager to work with the next generation of innovation thinkers.

The theme this year is:  
**Approximate Nearest Neighbor Challenge**

## THE CHALLENGE

Join us for a 4-week online challenge where you'll work with two unique datasets, designed to push your skills in developing search algorithms for specialized practical variants of Approximate Nearest Neighbor (ANN) problems.

## WHO CAN JOIN?

- If you're an undergraduate, Master's or PhD student.
- Students who graduated up to 2 years ago are also eligible.
- Students who are registered at a higher institution are encouraged to apply.
- Students studying engineering mathematics, computer science or related fields.

## WHY PARTICIPATE:

### Challenge

yourself by competing with fellow participants for the prizes in this exciting realm of the algorithm.

### Create

groundbreaking solutions and pave the way for generations to come.

### Career opportunities

by standing out with your work, outside-the-box thinking and innovative ideas.

### Network

with like-minded peers

### High-tier

expert mentoring

### Compete

for the shot at a

**55000 PLN prize pool**
